APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 24699, Certificate 7340 is issued subject to the terms and conditions imposed in said Permit 24699, Certificate 7340 and with the understanding that no other rights on the source will be affected by the change proposed herein. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This permit is subject to the final allocation of the State of Nevada under the California-Nevada Interstate Compact Commission. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly measurements of water use must be kept and submitted to the State Engineer by January 15 of each year.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0042 cubic feet per second, but not to exceed 1.0 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

June 28, 1996

Proof of completion of work shall be filed before:

July 28, 1998

Application of water to beneficial use shall be filed on or before:

June 28, 2001

Proof of the application of water to beneficial use shall be filed on or before:

July 28, 2001

Map in support of proof of beneficial use shall be filed on or before:
